

Focus on conception and realisation of brand environments dfrost is a competent and committed partner for a consequently developed visual marketing.

With many years of experience, a high affinity towards brands, aesthetic standards in every detail, zeitgeisty ambitious works and understanding for clients' visions and needs, dfrost creates target-oriented designs and solutions for the point of sale.

We handle everything from consulting to creation, project management through to production.

With fresh ideas. With clear statements.

With passion for detail and the courage to innovate.

### */THE RESPONSIBILITIES*

You support a seasoned project manager for at least 6 months in organising and executing projects for clients of the fashion and automotive industry. Focus is on window campaign handling as well as POS activities.

Since the bosses are in charge of the coffee we expect above-average commitment in the fields of project management, presentation preparation and supplier coordination. Additional skills are always welcome as well as creative input or experience with materials and good technical understanding can and should be integrated.

### */THE REQUIREMENTS*

You are a graduate or right in the middle of your studies. A completed apprenticeship is also a possibility. English seems doable and you bring some knowledge for PCs or Macs incl. standard office applications and you have a driving licence. The ability to work independently and within a team as well as commitment are a must. Interest or first experiences in the fashion industry are a plus. But most important is that you fit into our team!
